HOW TO APPLY

HTWK Leipzig welcomes applications from international students! The application procedure varies for degree and non-degree students:

Degree students
International students with a foreign university entrance qualification need to submit their application documents to „Arbeits- und Servicestelle für internationale Studienbewerbungen uni-assist e.V.“ (service centre for international applications to higher education in Germany). For detailed information please see www.uni-assist.de/en .

You may also contact the HTWK Leipzig Department of Student Affairs.

Department of Student Affairs
Eichendorffstraße 2, 04277 Leipzig
Dr. Birgit Päßler | Phone +49 341 30 76 – 62 98
birgit.paeszler@htwk-leipzig.de

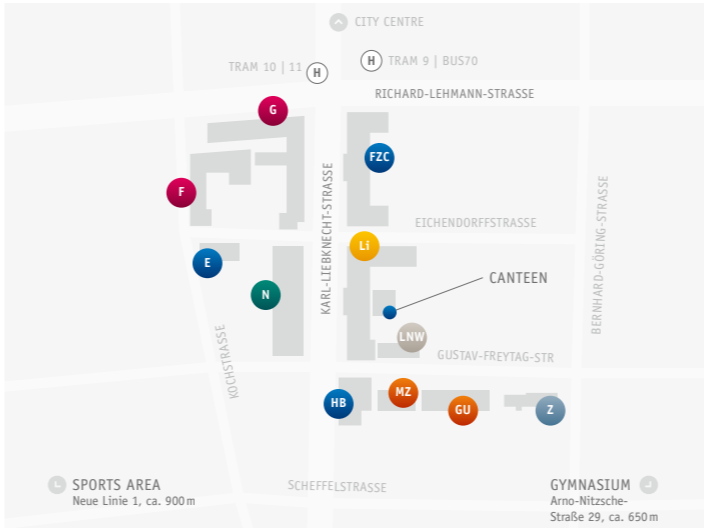

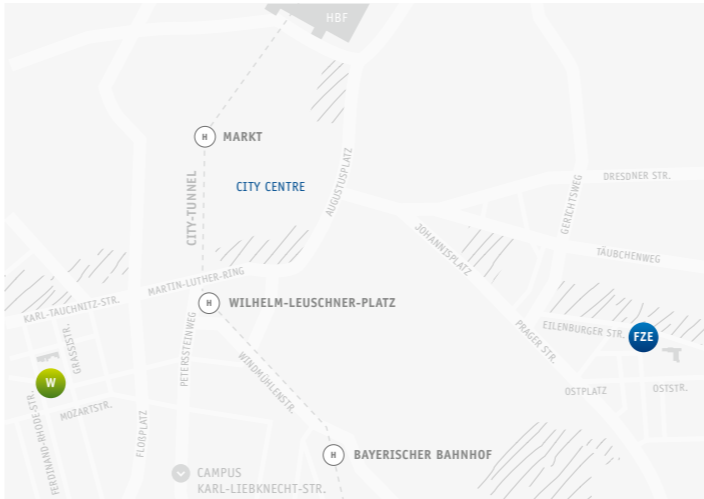

Non-degree students
Students who wish to spend one or two semesters at HTWK Leipzig apply to the university directly. Applicants must have completed at least two semesters of study at their home institution. Please contact the International Office for more information.

International Office
Karl-Liebknecht-Straße 132, 04277 Leipzig
Franziska Schmidt | Phone +49 341 3076 6678
international@htwk-leipzig.de

Please note: Since nearly all courses at HTWK Leipzig are taught in German, degree and non-degree students need to demonstrate a good command of written and spoken German prior to admission. For detailed information about language requirements and course offers in English, please see www.htwk-leipzig.de/en/studies/study-programmes .

Information about the application process and about studying at HTWK Leipzig is available at www.htwk-leipzig.de/en .

Unless indicated otherwise, all degree programmes start in the winter semester. *1) also offered as a part-time programme, *2) only awarded to external students, *3) tuition fees apply, *4) also available as a cooperative/dual programme (combining university study and on-the-job training) *5) enrolment only available in the summer semester, *6) in cooperation with partner universities, *7) service fees apply *8) in cooperation with a telecommunications company

Leipzig University of Applied Sciences

Leipzig University of Applied Sciences (HTWK Leipzig) was established in 1992, building on its predecessors and continuing a long tradition of scholarship in Leipzig. Today, with about 6 000 students, HTWK Leipzig ranks among Germany's largest universities of applied sciences. Providing practice-oriented, career-relevant education in short and intense courses of study that lead to accredited bachelor's and master's degrees is HTWK Leipzig's trademark feature. Our curricula have been designed to meet rapidly evolving industry needs, preparing students for high-level professional practice in fields such as engineering, business, social science and cultural studies.

Benefits of studying at HTWK Leipzig

- › individualised study environment, studying in small groups
- › Leipzig, the ultimate student town with international atmosphere
- › highly practice-oriented programmes – research-intensive
- › active campus life, all facilities within easy reach
- › PhD degrees may be granted in association with research universities
- › support services for students with children
- › state-of-the-art facilities, new laboratories and studios
- › no tuition fees

Leipzig – a lively metropolis

Leipzig is a lively place that has always been a highly popular study destination because of its cosmopolitan and creative atmosphere. A major East German city with more than half a million residents, Leipzig has been called many names: city of trade and trade fairs, city of books and media, or city of science and culture.

With its wide range of music, theatre, comedy and sports venues, Leipzig offers non-stop opportunities for young people to get involved and have fun. And of course, no student would want to miss out on those all-night conversations in cafes, student clubs, pubs and trendy hangouts. A nearby lake district and the city's many green spaces round out the opportunities to relax and unwind.

Leipzig is also where Goethe, Lessing, Leibniz or Kästner received their university education. Like these famous German writers and scholars, young people have continued to choose Leipzig as their study destination and home away from home for more than 600 years. The St. Thomas Choir and the Gewandhaus Orchestra are closely associated with the names of Johann Sebastian Bach and Felix Mendelssohn Bartholdy. They have been ambassadors of Leipzig's spirit as well as its rich and lively culture far beyond Germany's borders.

UNIVERSITY SERVICES

The University Library

collects, catalogues and provides information resources to be used by researchers, teachers and students. The library's holdings include

- › ca. 260,000 volumes and 400 print periodicals
- › access to ca. 180 databases and ca. 24,000 full-text electronic periodicals as well as 20,000 e-books
- › a digital DIN information centre containing all DIN norms, as well as all VDE directives and VDI guidelines

Phone General Library Information / Circulation Desk:
+49 341 30 76 – 65 93
www.htwk-leipzig.de/en/services

The University Language Centre

is responsible for providing academic and career-oriented foreign language courses in English, French, Russian, Spanish and German as a Foreign Language, which are part of the curriculum at HTWK Leipzig. A multimedia language learning lab featuring state-of-the-art media is available for self-directed study. Moreover, HTWK Leipzig offers courses in many languages that prepare students for earning international certificates such as

- › English: Cambridge English, IELTS
- › Business English: London Chamber of Commerce and Industry
- › German: TestDaF

www.htwk-leipzig.de/en/services

The University Sports Centre

offers programmes in more than 50 sports. Students may choose between courses taught by trained instructors and informal meetings. The many Wednesday tournaments are very popular. Thanks to a fully equipped gymnasium with its own weight and exercise rooms, there is a wide range of opportunities to match anybody's interest. All important information regarding registration, sports offerings, the various camps and much more is available at the University Sports Centre website:

sport.htwk-leipzig.de

University Centre for Interdisciplinary Education – HUB

runs and coordinates student programmes designed to provide qualifications that go beyond what students learn in their chosen field of study. With its individualised counselling sessions, excursions, workshops and lecture series, HUB seeks to provide the social and action competencies that are increasingly expected by employers, thus giving students a head start in their careers.

INTERNATIONAL RELATIONS

Today, international experience and intercultural expertise are deemed indispensable qualifications for university graduates. No matter where they will be based in the future – whether in Germany or abroad – graduates will have to be able to collaborate effectively with international business partners or colleagues.

The International Office at HTWK Leipzig supports students in organising a study abroad period by providing individualised counselling, awarding grants and scholarships, and maintaining institutional partnerships with more than 120 universities in other countries, such as China, France, Russia or Spain. Participants in the European Union's Erasmus+ Programme benefit from simplified application procedures at partner universities, financial support to cover travel and living expenses while abroad, and the transferability of foreign credits to their home degree based on the European Credit Transfer and Accumulation System.

About 12 percent of HTWK Leipzig students come from abroad. The Department of Student Affairs (contact for all degree-seeking students) and the International Office (contact for all non-degree students) advise international students about our academic programmes and the application process, and later help them integrate into university life in Leipzig.

RESEARCH AND DEVELOPMENT

As one of Germany's research-oriented universities of applied sciences HTWK Leipzig puts a strong emphasis on applied research, development and transfer of knowledge. Our research focuses on topics mostly within the university's four research profiles:

Preserving Resources

Construction & Energy

Maintaining Health

Life Science & Engineering

Taking Responsibility

Engineer & Economy

Accessing Information

Media & Information
