What are my options for a residence permit in Germany?

Important

- we cannot give you any legally binding information as we aren't lawyers
- we can only give advice on the options
- an individual counselling is recommended
 - Welcome Center Leipzig (*)
 - Advisory Centres For Migrants (**)

Ukrainian Citizens: §24 Residence Act (temporary protection)

- residency in Ukraine (not only for a short time) and
- home country can not offer protection or is not considered safe
- § 24 Residence Act goes back to Directive 2001/55/EC, First implementation of the directive on 4.3.2022
- residence permit is issued for two years. It can be extended up to three years in total
- entitles the holder to any type of gainful employment (also self-employment)
- Admission to integration courses is possible (§ 44 Abs. 4 AufenthG)
- Family reunification is generally allowed if the family unit already existed before the flight
- Entitlement to financial benefits for housing and living costs through SGB II from Jobcenter

Residence opportunities for non-Ukrainians with a regular previous stay in Ukraine

- Normally most nationalities need a national visa before entering Germany – exception: citizens from outside of Europe with regular prior residence in Ukraine do not need a visa
- Legal stay without a visa until 31.08.2022 possible, no application for a residence permit necessary during this time
- If you wish to stay in Germany - application for a residence permit for the period thereafter by 31st of August 2022 necessary.
- If you apply or already applied for a residence permit you get a so called “Fiktionsbescheinigung”

Residence opportunities for non-Ukrainians with a regular previous stay in Ukraine

- If you already have one you probably applied for §24 Residence Act
- As far as we know, Foreigner's Office Leipzig will soon send information to applicants asking if you whether want to continue to apply for §24 Residence Act - if yes and if your application will be rejected, no possibility to change into §16 Residence Act (Study or PHD Visa) later.
- you should decide for yourself whether this application has a good chance of success

Chances to get §24 Residence Act

- People who had refugee status or permanent residence (unlimited residence permit) in Ukraine have a good chance to get §24 residence law.
- In other words, people who have had their center of life in Ukraine for a long time.
- This does not apply to people who were in Ukraine to study.
- Good chance: people from Syria, Eritrea and Afghanistan and people who can prove a civil partnership with Ukrainian citizens

Chances to get §24 Residence Act

- Everyone else: individual proof that it is not possible to return to the country of origin
- where there is an obvious risk to the safety of the person concerned resulting from armed conflict or prolonged violence, documented risk of persecution or other inhuman or degrading treatment
- for an unlimited return to the country of origin, the person should have prospects for meeting his or her basic needs and the possibility of reintegration into the society
- personal (!), provable persecution
- lack of medical care for specific diseases
- pregnancy (short term obstacle to deportation), illness, family connection with German father/mother of common child(ren)

Chances to get §24 Residence Act

- application for residence title according to §24 Residence Act can be withdrawn
- or it can also be announced that an application for another residence title will be submitted
- Background: if there is a reasonable prospect of another residence title being issued, clarification of the possibility of returning to the country of origin is of secondary importance
- application for another residence title must be handed in by the end of August in order to have a legal stay in Germany
- the time until then can be used to create the conditions for another residence title

Possible residence permits if the special requirements are met:

- §24 Residence Act (temporary protection)
- Residency in the context of educational migration
- Residency in the context of labour migration

Residency in the context of educational migration

- Residency for the purpose of education/vocational training (§16a Residence Act)
